NC Compliance Limited (RC 9951252) · Port Harcourt, Nigeria

EDITION 1 · NOVEMBER 2026

WELCOME

ABOUT THIS GUIDE

NC Compliance is web software that helps oil and gas companies in Nigeria prepare their Nigerian Content reports for the Nigerian Content Development and Monitoring Board (NCDMB). This guide takes you through every step: creating your account, setting up your company and team, recording your data, approving reports, and printing and submitting the full pack to NCDMB.

It's written for everyone involved: **compliance and Nigerian Content managers**, **procurement and contracts teams** who record the data, and **managers and directors** who review and sign off.

TRY IT AS YOU READ

Open the live demo at **nccompliance.com.ng/demo**. It's a complete sample company you can click through without signing up, and nothing you do there is saved.

Contents

1 Before you start: what to have ready
2 Create your account and company
3 Company settings
4 Invite your team and choose roles
5 A tour of your workspace
6 The compliance calendar and email reminders
7 Record your Nigerian Content spend (and import from Excel)
8 Add contracts, subcontracts and purchase orders
9 Record vessels and marine services
10 Expatriate quota and other statutory records
11 Your Nigerian Content position
12 The NCDMB reports: view, download and print
13 Review and approve reports as a team
14 Documents and certificates
15 Build the submission pack
16 Print, sign and submit to NCDMB
17 Record the submission and keep the acknowledgement
18 Plans, billing and your free trial
19 Quarterly checklist, questions and help

Screenshots show a fictional sample company. NC Compliance is independent software, not affiliated with NCDMB.

CHAPTER 1

BEFORE YOU START

Setting up takes a few minutes. Having this information to hand makes your first quarter much quicker.

Company details

- ☐ Your company's registered name, as it should appear on reports
- ☐ Your NCDMB / NCEC registration number (you can add it later)
- ☐ Your registered office address (for the cover letter)
- ☐ The name and designation of the person who signs submissions to NCDMB

Your team

- ☐ Work email addresses of the people who will **prepare** data (procurement, contracts, HR, operations)
- ☐ Who will **review** the figures (for example, the Nigerian Content or compliance manager)
- ☐ Who will **approve** reports before submission (for example, a director or general manager)

Your data for the quarter

- ☐ **Spend:** payments to vendors and contractors, split into Nigerian and foreign (labour, equipment, services). An Excel sheet is fine; you can import it.
- ☐ **Contracts, subcontracts and purchase orders:** description, contractor, value in US dollars, status and expected quarter. Note the contractor's NCEC number where you have it.
- ☐ **Vessels and marine services** used in the quarter, if any.
- ☐ **Expatriate positions:** approved quota slots and Nigerian understudies.
- ☐ **Certificates:** NCEC certificate, expatriate quota approvals, NCDF receipts and past NCDMB acknowledgements, as PDFs or photos.

Which company type are you?

Type	Choose it if...
Operator / asset owner	You're an IOC, indigenous operator or marginal field owner reporting to NCDMB.
Contractor / service company	You provide EPC, fabrication, marine, drilling or other oil and gas services.
Compliance consultant	You prepare NCDMB submissions for client companies. You can manage several client companies from one login.

CHAPTER 2

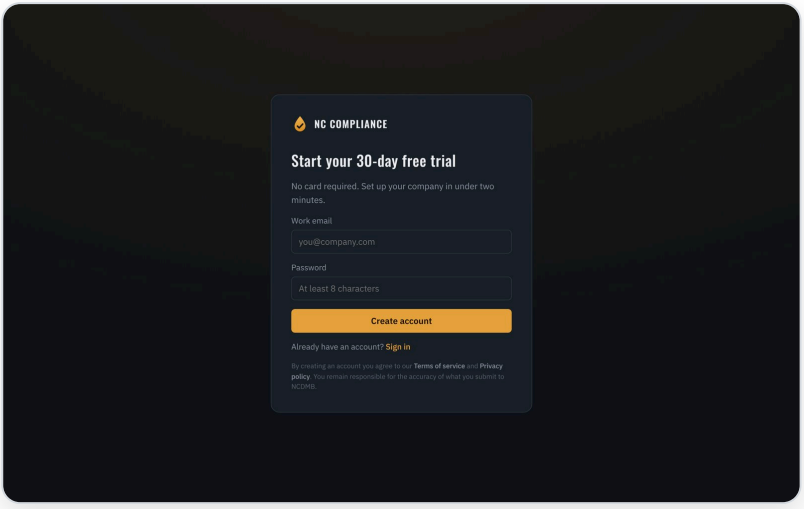

CREATE YOUR ACCOUNT AND COMPANY

Every company starts with a free 30-day trial of all features. No card is needed.

Sign up → Confirm your email → Company type → Company details → Your workspace

Step 1: Sign up

1. Go to **nccompliance.com.ng** and click **Start free trial**.
2. Enter your **work email** and choose a secure sign-in phrase of at least 8 characters.
3. Click **Create account**.

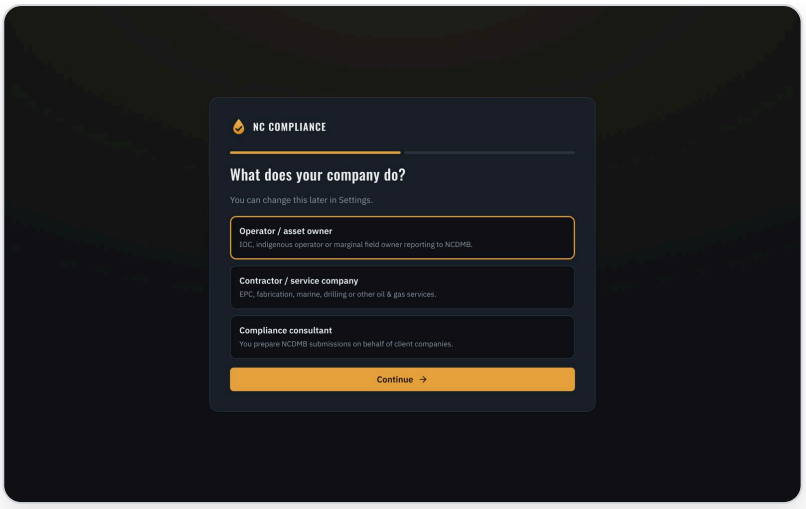

The sign-up page

Step 2: Confirm your email

We send a confirmation link to your email. Open it to activate your account, then sign in. If it doesn't arrive within a few minutes, check your spam folder. The sign-in page can send a new link.

Step 3: Choose your company type

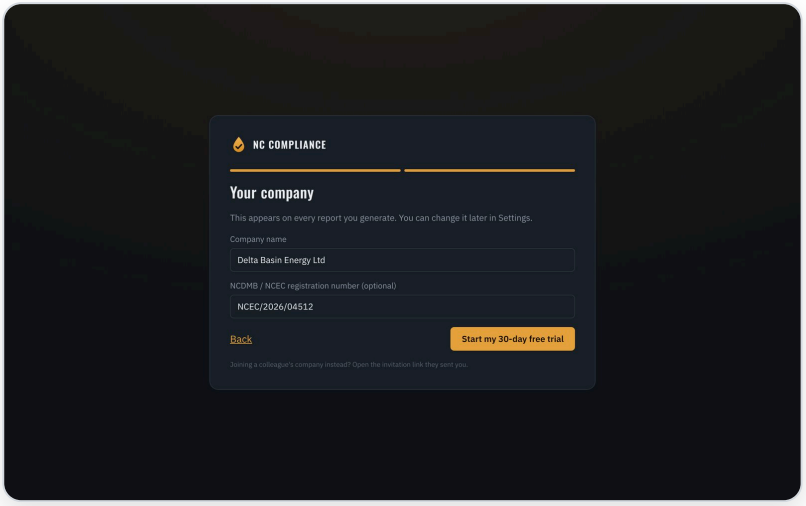

Pick **Operator / asset owner**, **Contractor / service company** or **Compliance consultant**, then click **Continue**. You can change this later in Settings.

Choosing your company type

Step 4: Enter your company details

Enter the **company name** exactly as it should appear on your NCDMB reports, and your **NCDMB / NCEC registration number** if you have it. Click **Start my 30-day free trial**. Your workspace opens straight away.

Company name and registration number

JOINING A COLLEAGUE'S COMPANY?

Don't create a new company. Open the invitation link your colleague sent you instead (see Chapter 4), and you'll join their workspace with the right role.

FOR COMPLIANCE CONSULTANTS

To add another client company, click your company name at the top of the sidebar and choose **Add a company**. Switch between clients from the same menu. Each company's data, team and reports are kept completely separate.

CHAPTER 3

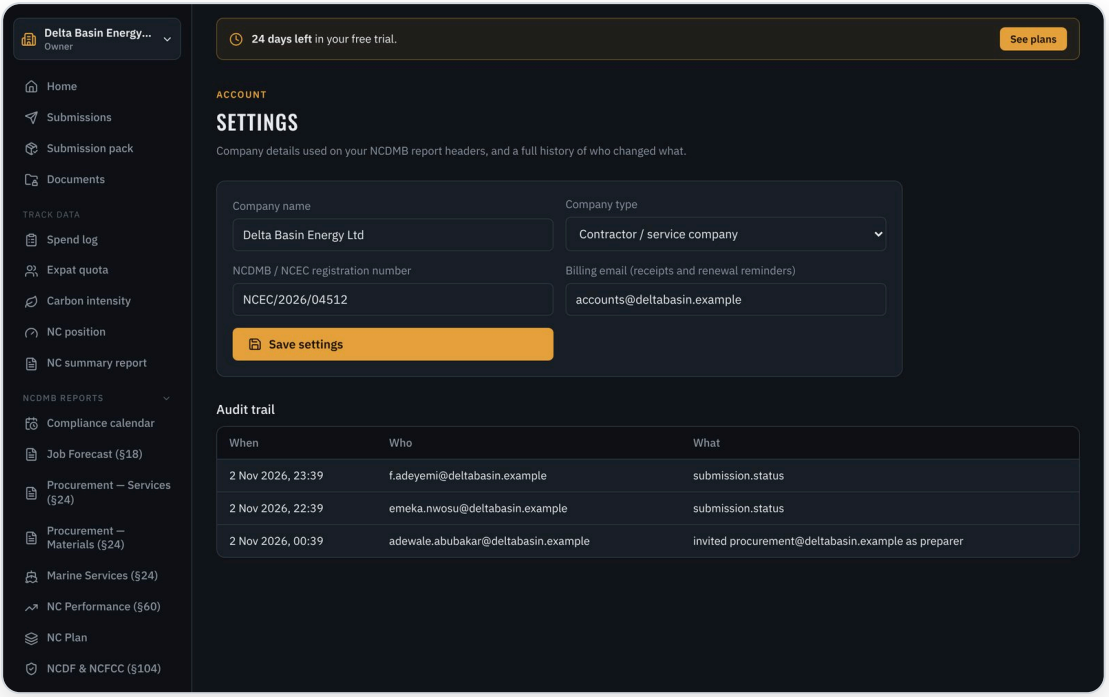

COMPANY SETTINGS

Your company details appear on every report header. Set them once and every report uses them.

Open **Settings** in the **Account** section near the bottom of the sidebar. You can update:

- **Company name**: used on every report and the cover letter
- **Company type**: operator, contractor or consultant
- **NCDMB / NCEC registration number**: printed on reports and the cover letter
- **Billing email**: where receipts and renewal reminders are sent

Click **Save settings** when you're done.

Settings, with the audit trail below

The audit trail

Below the settings, owners and admins see the **audit trail**: a record of who did what and when, such as approving a report, inviting a colleague or changing settings. It shows NCDMB and your management exactly how each submission was prepared.

> **WHO CAN DO THIS**
>
> Owners and admins can change settings and see the audit trail.

CHAPTER 4

INVITE YOUR TEAM AND CHOOSE ROLES

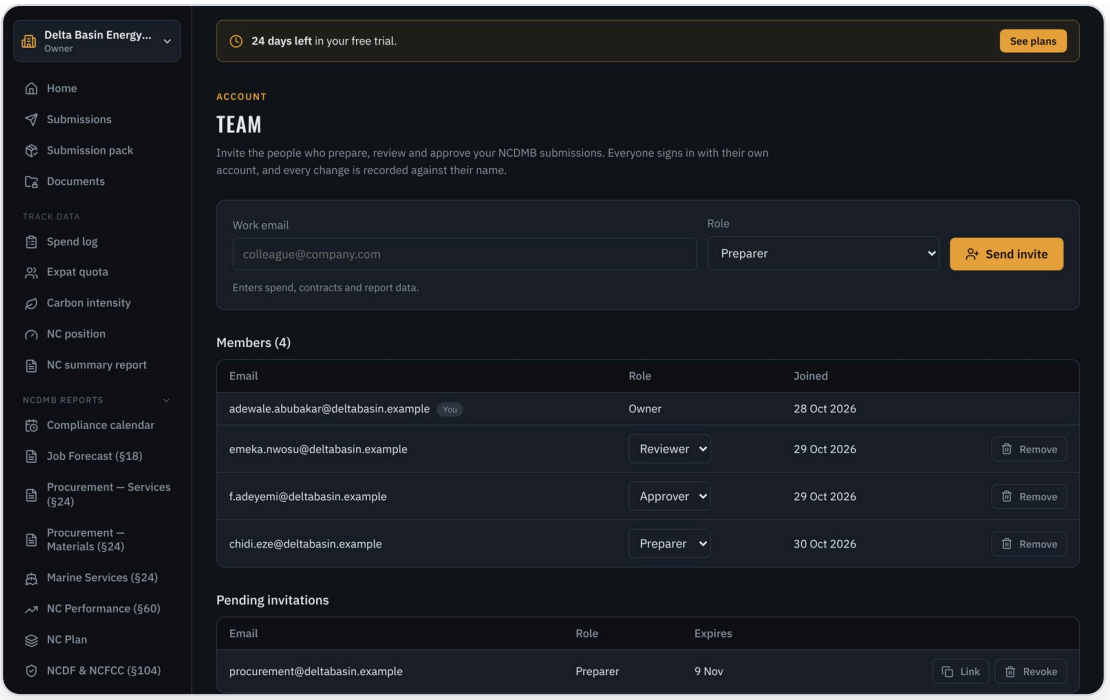

Everyone signs in with their own account, and every change is recorded against their name. Roles decide who can enter data, who reviews and who signs off.

The six roles

Role	What they can do	Typical person
Owner	Full control, including billing. One per company.	The person who created the company
Admin	Manages the team, billing and company settings.	Compliance manager, IT or admin lead
Approver	Signs off reports before submission and records the NCDMB submission. Can edit data.	Director, GM, Head of Nigerian Content
Reviewer	Checks figures prepared by the team and marks reports reviewed. Can edit data.	Nigerian Content or compliance manager
Preparer	Enters spend, contracts and report data, and sends reports for review.	Procurement, contracts, HR, operations staff
Viewer	Read-only access to dashboards and reports.	Management, auditors

Invite a colleague

1. Open **Team** in the **Account** section of the sidebar.
2. Enter their **work email** and choose a **role**.
3. Click **Send invite**. They receive an email with a link to join.
4. You can also click **Copy link** and send the invitation yourself, for example in a message.

The Team page: invite, members and pending invitations

Manage your team

- **Change a role:** pick a new role from the list next to the person's name.
- **Remove someone:** click **Remove**. They lose access immediately, and their past actions stay in the audit trail.
- **Pending invitations:** copy the link again with **Link**, or cancel with **Revoke**.

> **A GOOD SET-UP FOR MOST COMPANIES**
>
> One or two **preparers** in procurement and contracts, the compliance manager as **reviewer**, and a director as **approver**. That gives every report a clear "prepared, checked, signed off" trail before it goes to NCDMB.

The number of team members depends on your plan (see Chapter 18).

CHAPTER 5

A TOUR OF YOUR WORKSPACE

The Home page shows what needs your attention: upcoming submissions and their status, your Nigerian Content position, and certificates about to expire.

Home: upcoming submissions, Nigerian Content position, certificates

The sidebar

Section	What's there
Top	Your company name (click to switch companies or add one), Home, Submissions, Submission pack and Documents
Track data	Spend log, Expat quota, Carbon intensity, NC position and NC summary report
NCDMB reports	Compliance calendar, Job Forecast (§18), Procurement (§24) for materials and services, Marine Services (§24), NC Performance (§60), NC Plan, NCDF & NCFCC (§104), Employment & Training (§29), R&D, Insurance, Legal and Financial services, Technology Transfer and Succession Plan (§33)
Account	Team, Billing and Settings, then Sign out and Help & guides at the very bottom

A **coloured dot** next to a report shows its status for the current period: amber for in review, green for approved or submitted.

The guide on every report

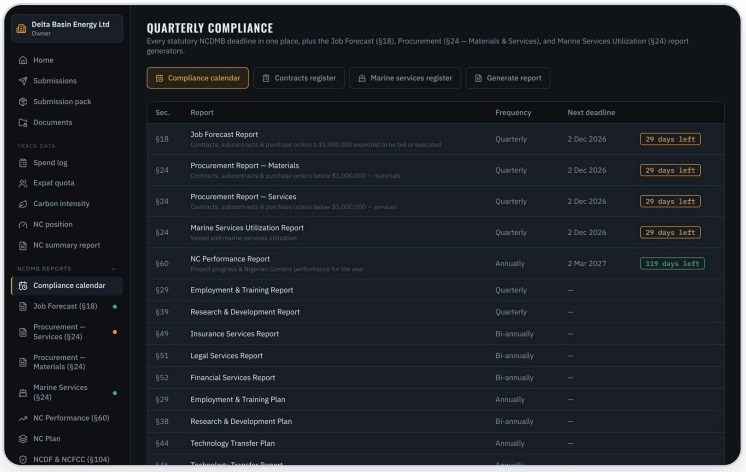

Each report screen opens with a short guide: **what the report is**, **when it's due**, **what you'll need** and **how to do it here**. Click the guide's title bar to hide it once you're familiar with the report.

> **YOUR TRIAL STATUS**
>
> During the trial, a banner at the top shows how many days are left, with a link to choose a plan.

CHAPTER 6

THE COMPLIANCE CALENDAR AND REMINDERS

Every NCDMB deadline on one calendar, with email reminders so nothing is missed.

The compliance calendar

How the deadlines are worked out

Report	Due
Job Forecast (§18), Procurement (§24, materials and services), Marine Services (§24)	**Quarterly, 30 days before the quarter starts.** For example, January–March reports are due on 2 December.
Nigerian Content Performance Report (§60)	**Annually, within 60 days of the start of the year**, for the previous year.
Other reports (Employment & Training, R&D, Insurance, Legal, Financial, Technology Transfer, Succession, NC Plan)	On their own schedules. Confirm the exact dates with NCDMB.

Email reminders

Your company's **owners, admins and approvers** are emailed **14, 7, 3 and 1 day** before each quarterly and annual deadline. Each reminder lists the reports due and links straight to them.

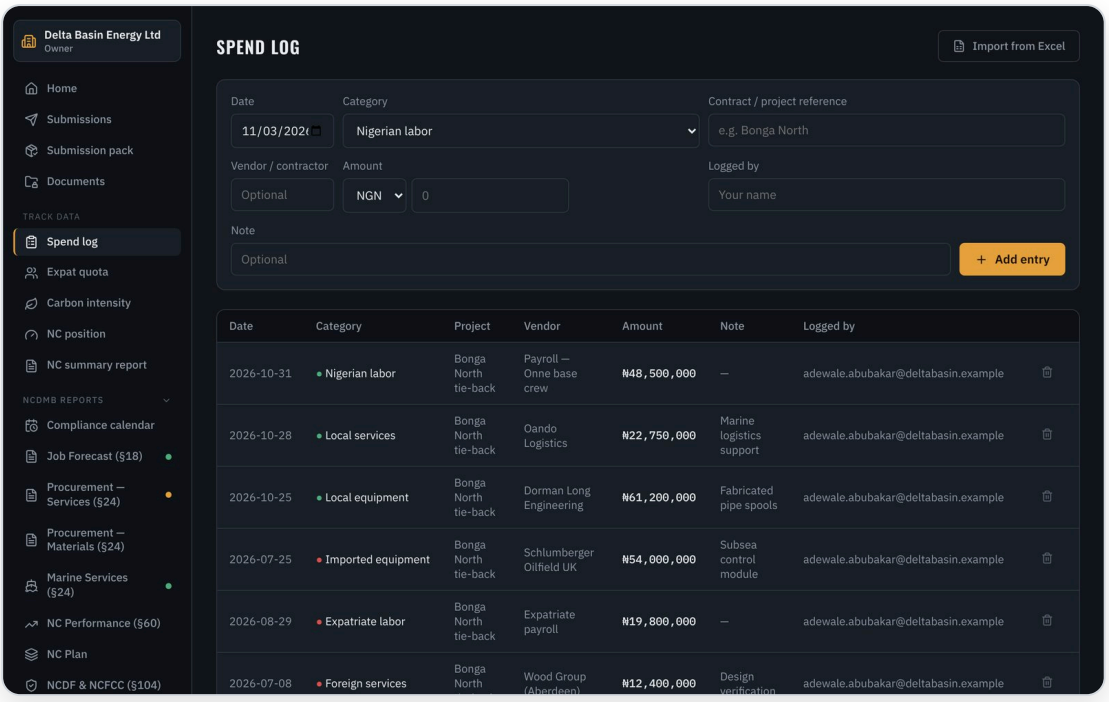

SHARE THE DATES

The public page **nccompliance.com.ng/ncdmb-deadlines** lists every deadline for this year and next. Colleagues without an account can sign up there for free email reminders, or download the dates to Google Calendar, Outlook or iPhone.

CHAPTER 7

RECORD YOUR NIGERIAN CONTENT SPEND

The spend log is the record of what your company spends, split into Nigerian and foreign. It drives your Nigerian Content percentage and the NC summary and NC Performance reports.

The spend log

Add an entry

1. Open **Spend log**.
2. Fill in the **date**, **category**, **contract or project reference**, **vendor or contractor** and **amount**.
3. Choose **NGN** or **USD**. Dollar amounts are converted to naira at your company's exchange rate (set on the NC position page).
4. Add a note if useful, then click **Add entry**.

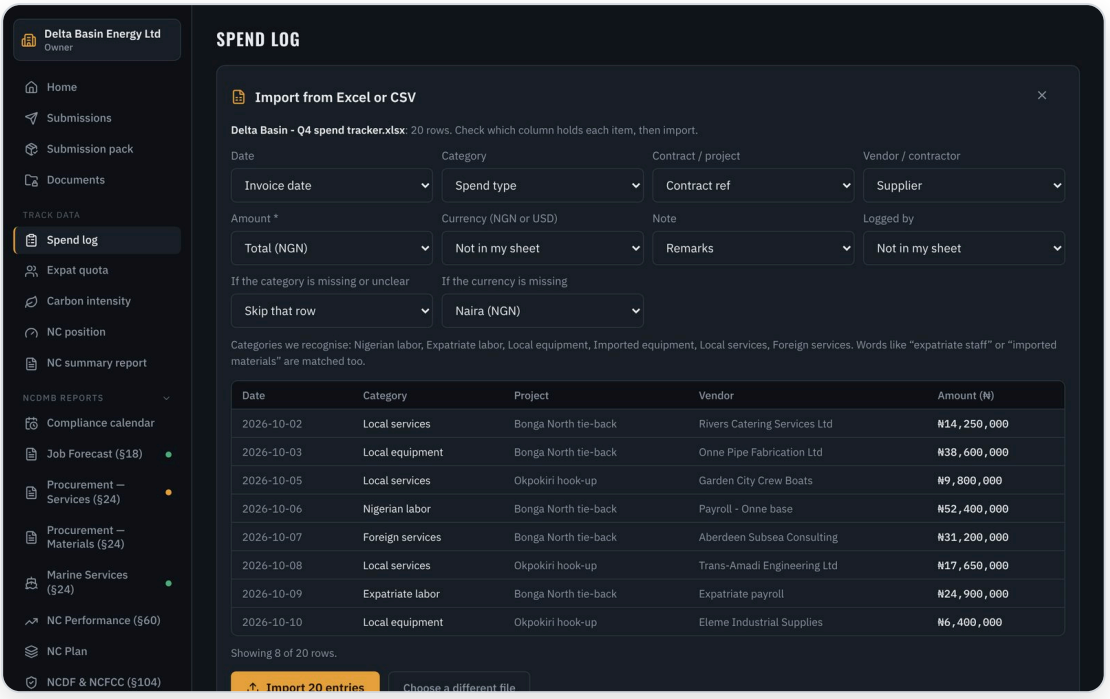

The six categories

Nigerian (counts towards Nigerian Content)	Foreign
Nigerian labour	Expatriate labour
Local equipment	Imported equipment
Local services	Foreign services

Import from Excel (recommended)

If your team already keeps spend in a spreadsheet, import it instead of typing it again.

1. On the spend log, click **Import from Excel**.
2. Click **Choose file (.xlsx or .csv)** and pick your spreadsheet. The first row should be the column headings.
3. Check the column matching. NC Compliance recognises common headings such as "Supplier", "Total (NGN)", "Spend type" and "Invoice date". Correct any column using the drop-downs.
4. Choose what to do if a row's **category** or **currency** is missing.
5. Check the **preview**. Rows that can't be imported are listed with the reason, for example "row 6: no amount".
6. Click **Import**. The entries are added to the spend log and every report updates.

Importing a spreadsheet: column matching and preview

GOOD TO KNOW

- Amounts like `₦4,800,000`, `4.8m` or `$45,000` are understood, and dollar amounts are converted.
- Dates like `31/10/2026` (day first) are read correctly.
- Everyday wording is matched to the categories, for example "expatriate staff" becomes Expatriate labour and "imported materials" becomes Imported equipment.
- Need a starting point? Click **Download template**, fill it in and import it.
- Old **.xls** files: save them as .xlsx or .csv in Excel first.

CHAPTER 8

ADD CONTRACTS, SUBCONTRACTS AND PURCHASE ORDERS

The contracts register is where you add your contractors and suppliers' contracts. Enter each contract, subcontract or purchase order once, and NC Compliance places it in the right NCDMB report automatically.

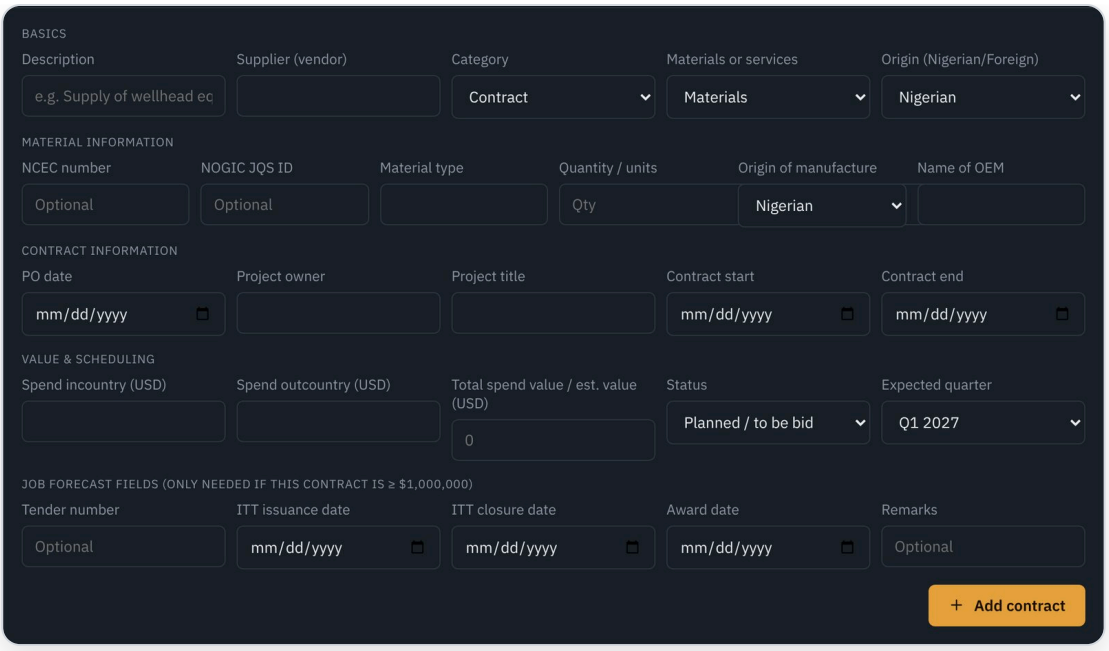

How contracts are sorted into reports

Contract value	Report
US$1,000,000 or more	Job Forecast Report (§18)
Below US$1,000,000, materials	Procurement Report — Materials (§24)
Below US$1,000,000, services	Procurement Report — Services (§24)

Each contract also has an **expected quarter**. A contract appears in the reports for that quarter.

Add a contract

1. Open **Job Forecast (§18)** or either **Procurement (§24)** report. The contracts register form is on these screens.
2. **Basics:** description, supplier or contractor (vendor), category (*Contract*, *Subcontract* or *Purchase order*), *Materials* or *Services*, and origin (*Nigerian* or *Foreign*).
3. **Contractor information:** the contractor's NCEC number and NOGIC JQS ID. For materials: material type, quantity and units, origin of manufacture and OEM. For services: service type, equipment deployed and partnering vendor.
4. **Contract information:** PO date, project owner, project title, contract start and end dates.
5. **Value and scheduling:** spend in-country and out-country (USD), total value or estimated value (USD), status (*Planned / to be bid*, *Bidding in progress*, *Awarded* or *Executed*) and expected quarter.
6. **Job Forecast fields** (only for contracts of US$1,000,000 or more): tender number, ITT issuance and closure dates, award date and remarks.
7. Click **Add contract**.

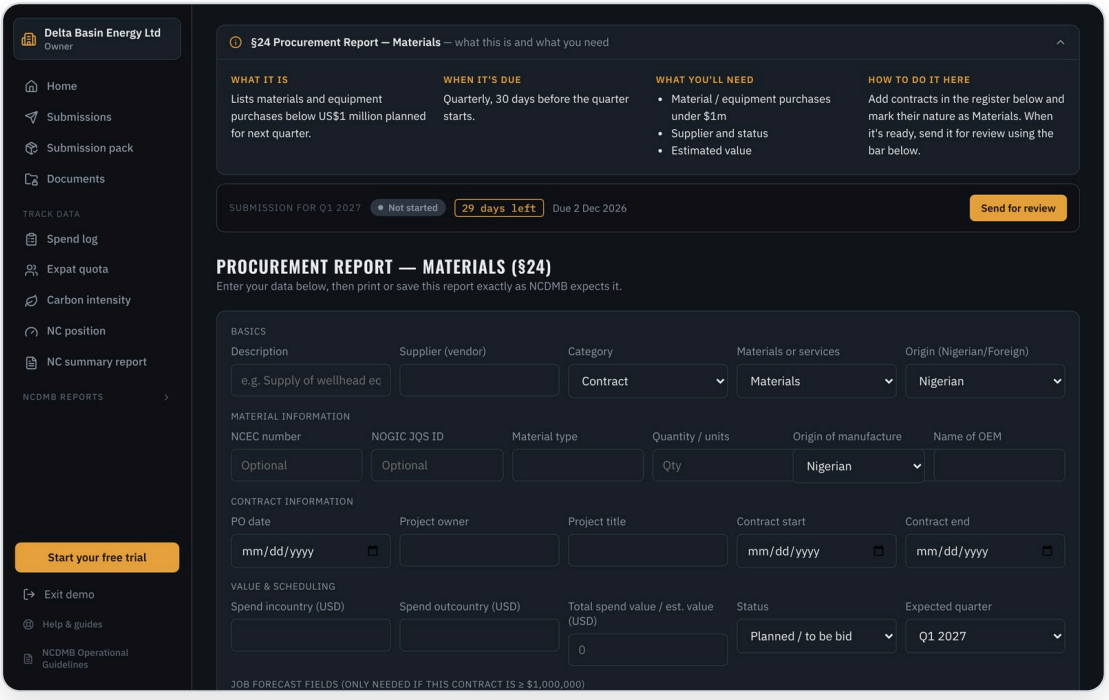

The contracts register form

KEEP CONTRACTORS' CERTIFICATES TOO

Upload each contractor's NCEC certificate to **Documents** as "Contractor's NCEC certificate" (Chapter 14), so you can show NCDMB that your vendors are registered.

Where to see them

Each report screen shows the contracts register and, below it, the report built from it in NCDMB's layout. Remove a contract with the bin icon at the end of its row.

Procurement Report — Materials (§24)

CHAPTER 9

RECORD VESSELS AND MARINE SERVICES

If your company uses vessels or marine services, record them for the quarterly Marine Services Utilization Report (§24).

1. Open **Marine Services (§24)**.
2. **Vessel contractor:** name, address, phone, email, NIMASA owner registration certificate number and categorisation status.
3. **Vessel details:** vessel name, type, IMO number, NIMASA vessel registration certificate number and flag.
4. **Project details:** project name, type of service, location, and contract start and end dates.
5. **Spend and people on board:** spend in-country and out-country (USD), Nigerian POB, expatriate POB and the **quarter**.
6. Click **Add vessel record**.

The vessel record form

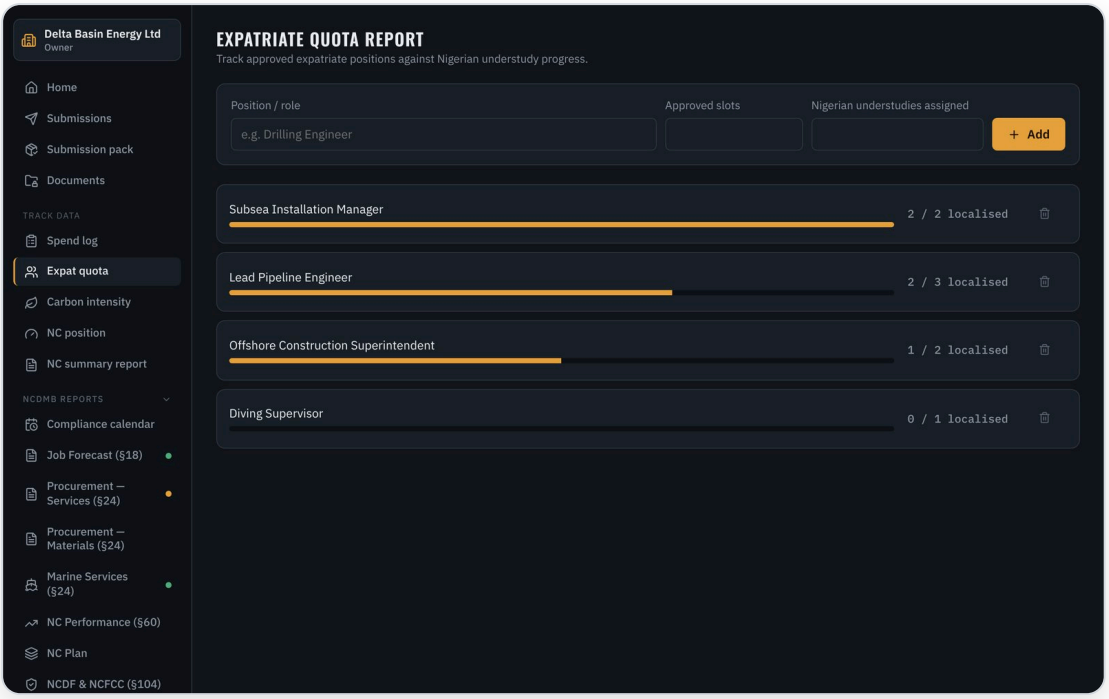

Below the form, the screen shows the vessel records for the quarter and the report in NCDMB's layout, ready to download or print.

CHAPTER 10

EXPATRIATE QUOTA AND OTHER RECORDS

Expatriate quota

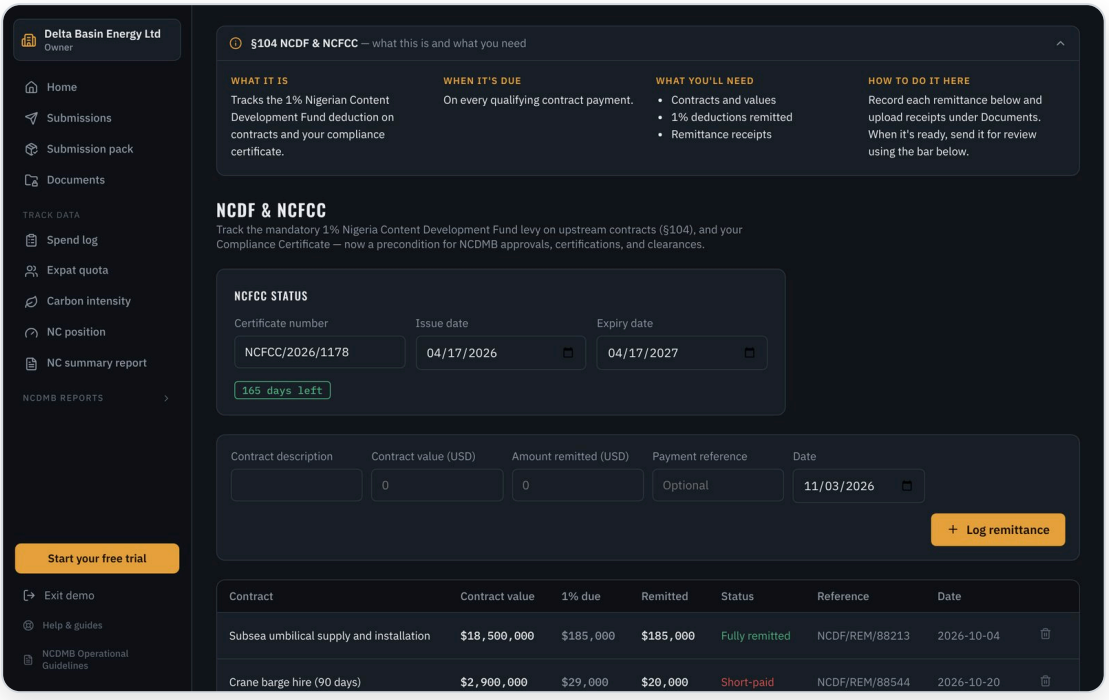

Under **Expat quota**, record each expatriate **position**, the number of **approved slots** and the **Nigerian understudies** assigned. Succession plans for each expatriate role are kept under **Succession Plan (§33)** in the NCDMB reports section.

Expatriate quota

Other statutory records

Screen	What you record
NC Plan	Your Nigerian Content Plan: project description, location, personnel, procurement and vessels
NCDF & NCFCC (§104)	Nigerian Content Development Fund remittances (1% of contract value) and your NCFCC certificate
Employment & Training (§29)	Your training plan and training programmes delivered, with Nigerian participants
R&D (§38/39)	Research and development plan and initiatives
Insurance (§49), Legal (§51), Financial (§52)	The Nigerian insurers, law firms and banks you use
Technology Transfer (§44/46)	Technology transfer plan and partners
Carbon intensity	Fuel and energy use, for internal tracking of emissions

NCDF & NCFCC

CHAPTER 11

YOUR NIGERIAN CONTENT POSITION

The NC position page shows your Nigerian Content percentage, worked out from the spend log and compared with your target.

NC position: percentage against target, and spend by category

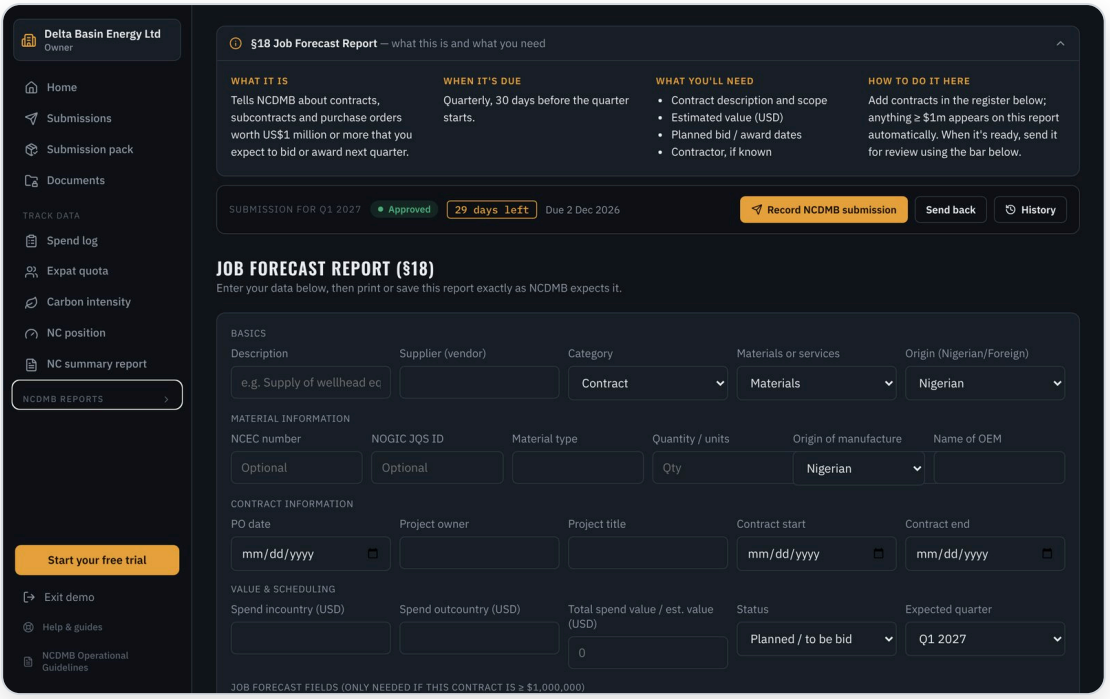

- **Nigerian Content %** is Nigerian spend divided by total spend.
- Set your **target** (for example 70%) and the **exchange rate** used to convert dollar entries.
- **Spend by category** shows where foreign spend is concentrated, so you can see where to improve.

The **NC summary report** presents the same figures as a printable report for any date range.

CHAPTER 12

THE NCDMB REPORTS

Every report is laid out as NCDMB's templates expect, filled from the data you've recorded.

A report screen: the guide, the approval bar and the data

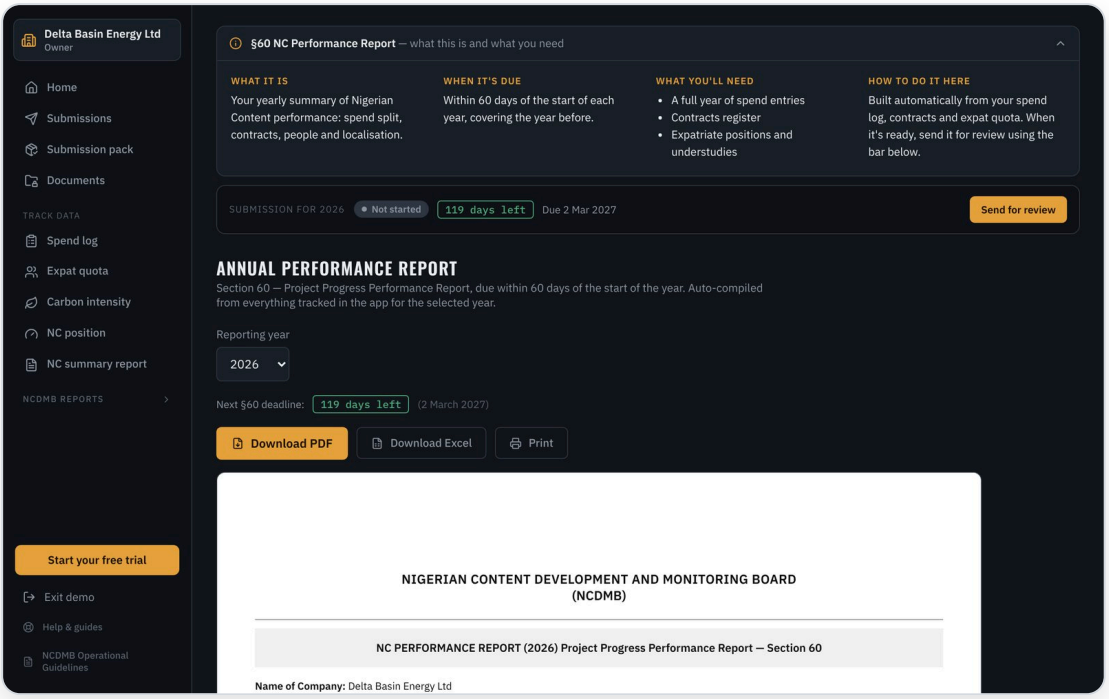

Download or print a report

At the top of each report you'll find:

- **Download PDF**: a ready-to-print PDF of the report
- **Download Excel**: the same report as a spreadsheet
- **Print**: print directly, or choose "Save as PDF" in the print window

The reports included

Report	Built from
Job Forecast (§18)	Contracts of US$1,000,000 or more for the quarter
Procurement — Materials and Services (§24)	Contracts below US$1,000,000, by materials or services
Marine Services Utilization (§24)	Vessel records for the quarter
NC Performance Report (§60)	The year's spend, contracts, training and other records
NC Plan, NCDF & NCFCC, Employment & Training, R&D, Insurance, Legal, Financial, Technology Transfer, Succession	The records on each screen

NC Performance Report (§60)

CHECK BEFORE YOU SUBMIT

Reports are only as accurate as the data entered. Your reviewer and approver should check the figures before sign-off (Chapter 13).

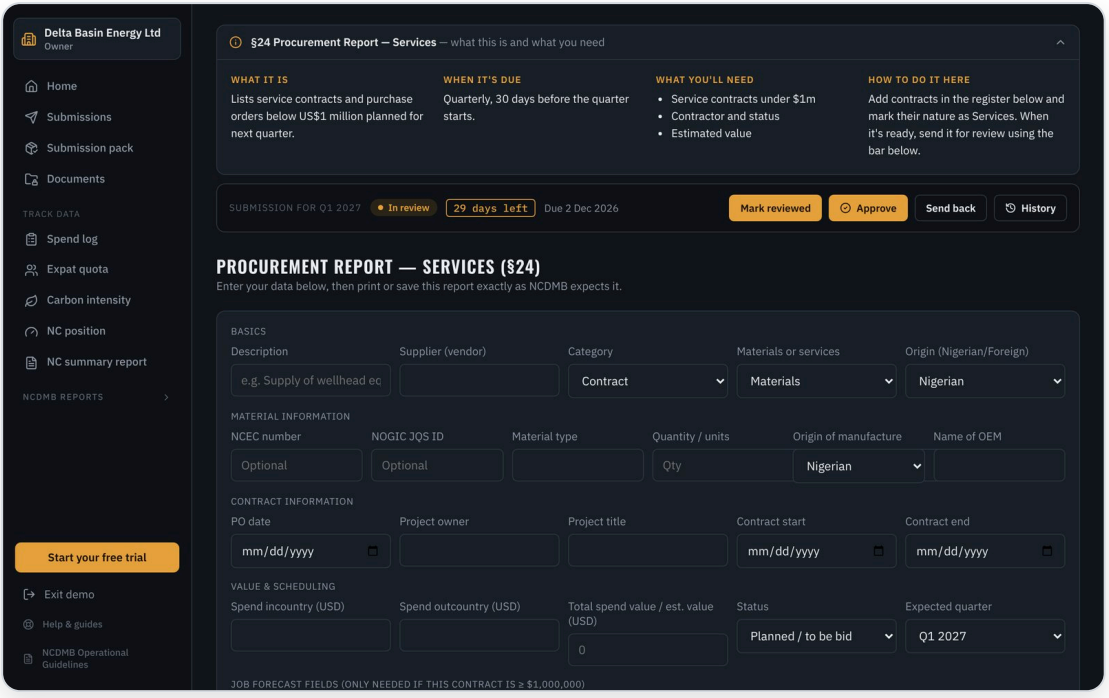

CHAPTER 13

REVIEW AND APPROVE AS A TEAM

Each report moves from preparation to submission, with every step recorded against the person who did it. The "Reviewed" step is optional: an approver can approve straight from "In review".

Not started → In review → Reviewed → Approved → Submitted to NCDMB

The **approval bar** at the top of each report shows its status for the current period, the days left to the deadline, and the buttons you can use.

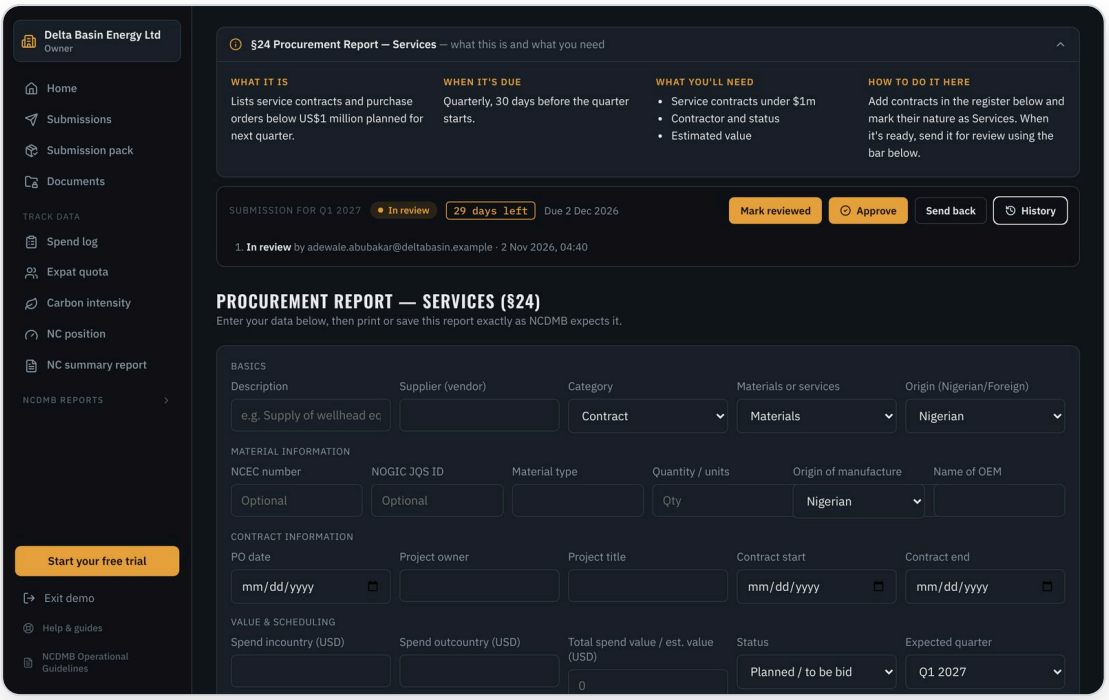

The approval bar: status, days left and actions

Button	What it does	Who can use it
Send for review	Tells reviewers the report is ready to check	Preparers, reviewers, approvers, admins, owner
Mark reviewed	Confirms the figures have been checked	Reviewers, approvers, admins, owner
Approve	Signs the report off for submission	Approvers, admins, owner
Record NCDMB submission	Marks it as submitted, with NCDMB's reference (Chapter 17)	Approvers, admins, owner
Send back	Returns the report to "Not started" for corrections	Anyone who can edit

History

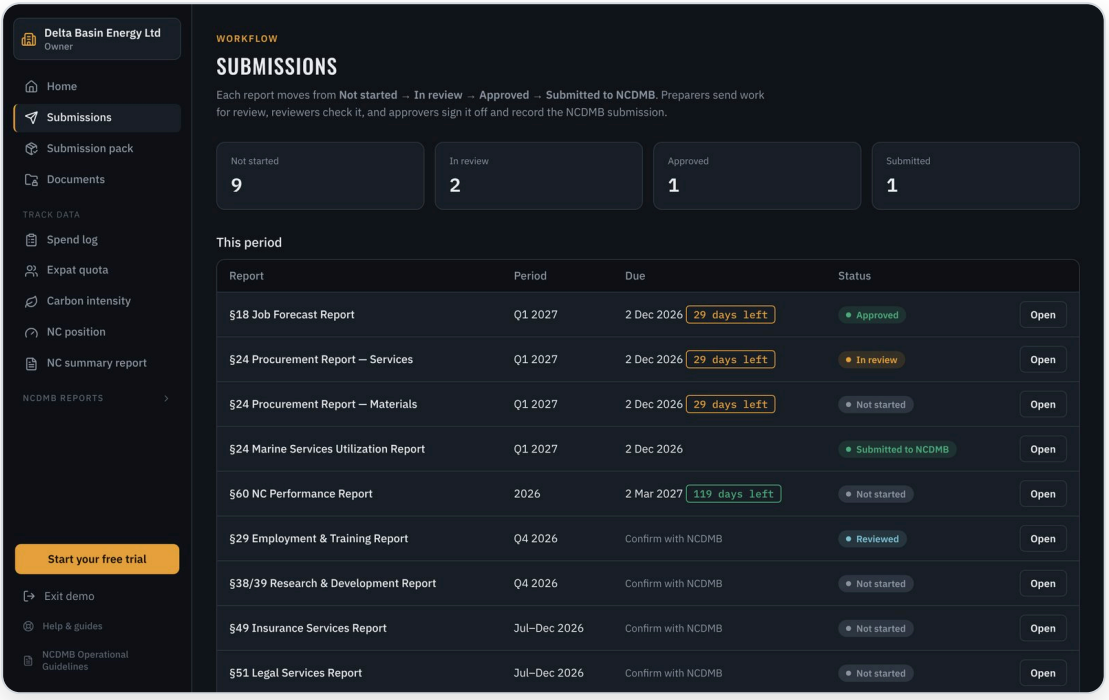

Click **History** to see every step: who sent it for review, who reviewed and approved it, and when.

A report's history

The Submissions page

Submissions shows every report for the current period with its due date, days left and status, so managers can see at a glance what's outstanding.

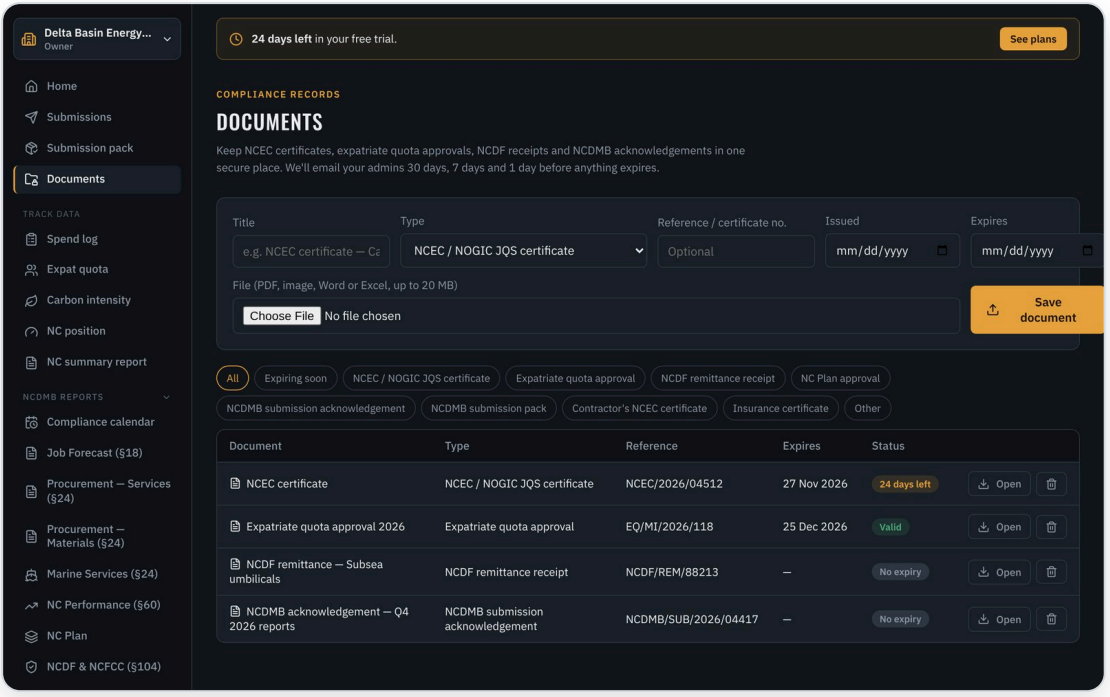

Submissions: every report's status for the period

CHAPTER 14

DOCUMENTS AND CERTIFICATES

Keep NCEC certificates, expatriate quota approvals, NCDF receipts and NCDMB acknowledgements in one secure place, with warnings before anything expires.

1. Open **Documents**.
2. Enter a **title**, choose the **type**, and add the **reference or certificate number**, **issue date** and **expiry date**.
3. Choose the file (PDF, image, Word or Excel, up to 20 MB) and click **Save document**.

Documents, with expiry status

Document types

NCEC / NOGIC JQS certificate · Expatriate quota approval · NCDF remittance receipt · NC Plan approval · NCDMB submission acknowledgement · NCDMB submission pack · Contractor's NCEC certificate · Insurance certificate · Other

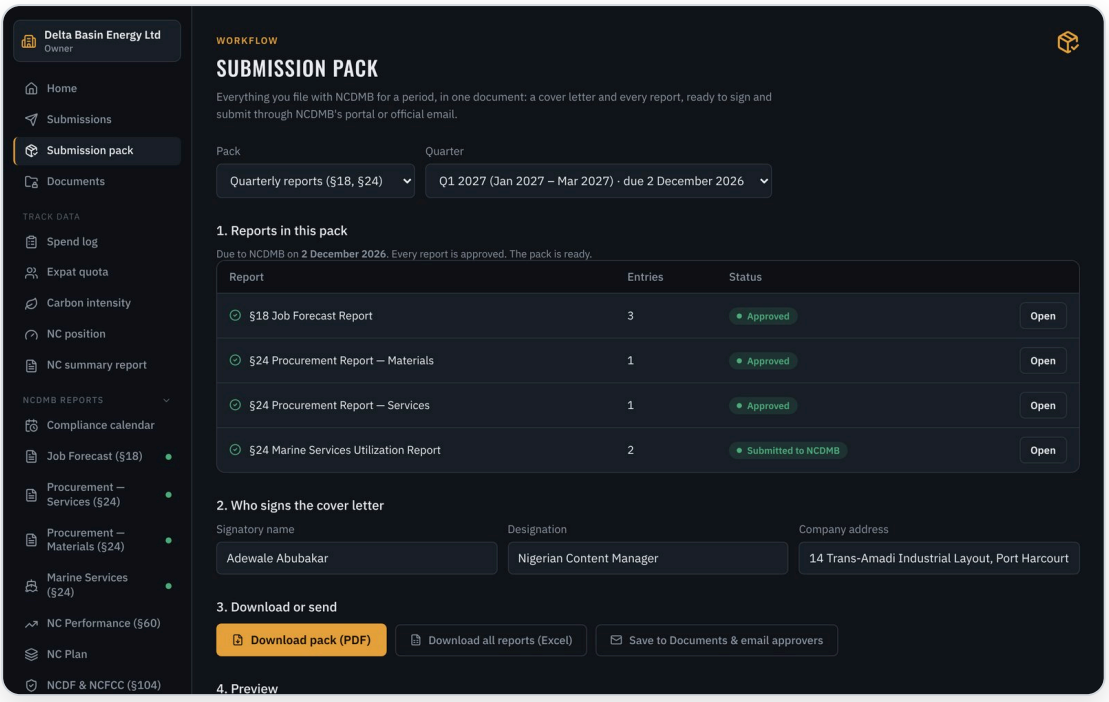

EXPIRY WARNINGS

We email your company's owners, admins and approvers **30 days, 7 days and 1 day** before a document expires. Use the **Expiring soon** filter to see what needs renewing.

CHAPTER 15

BUILD THE SUBMISSION PACK

The submission pack is everything you file with NCDMB for a period, in one document: a cover letter and every report.

The Submission pack page

Step 1: Choose the pack and period

Open **Submission pack** and choose **Quarterly reports (§18, §24)** or the **NC Performance Report (§60)**, then the quarter or year. The list shows each report in the pack, how many entries it has and its approval status. Click **Open** to go to any report.

Step 2: Who signs the cover letter

Enter the **signatory's name**, **designation** and the **company address**. These are saved for next time.

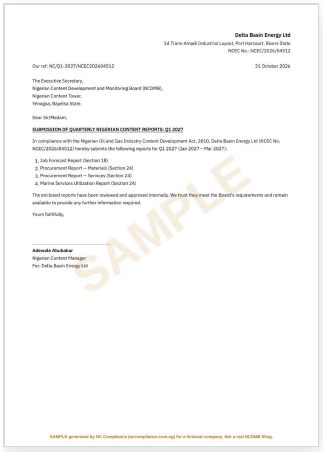

Step 3: Download or send

- **Download pack (PDF)**: the cover letter and every report in one PDF, ready to print and sign.
- **Download all reports (Excel)**: one workbook with a sheet per report.
- **Save to Documents & email approvers**: files the pack in Documents and emails it to your approvers (available once every report is approved).

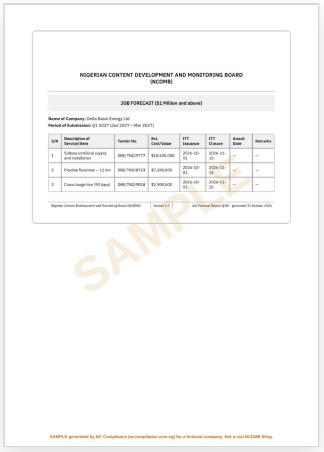

DRAFT PACKS

If any report isn't approved yet, the button reads **Download draft pack (PDF)** and the pack is marked **DRAFT**. Approve every report before you download the version for NCDMB.

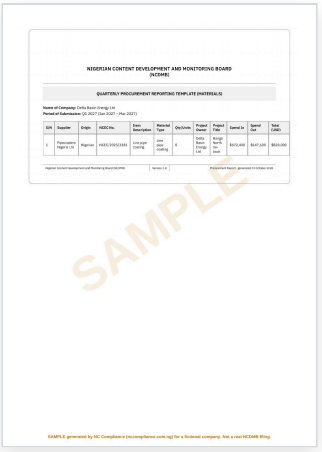

What's in the pack

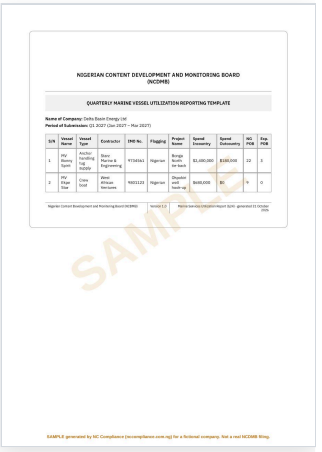

Cover letter to the Executive Secretary, NCDMB

Job Forecast (§18)

Procurement — Materials (§24)

Marine Services (§24)

Pages from a sample pack for a fictional company.

CHAPTER 16

PRINT, SIGN AND SUBMIT TO NCDMB

NC Compliance prepares your submission. Your company submits it to NCDMB through NCDMB's official channels.

Step 1: Final check

- ☐ Every report in the pack shows **Approved**.
- ☐ The company name, registration number and address on the cover letter are correct.
- ☐ The period on the cover letter matches the reports.

Step 2: Print

Open the downloaded **pack PDF** and print it on A4. Wide tables are scaled to fit the page, so every column prints.

Step 3: Sign

The named signatory signs the cover letter. Add your company stamp if your company uses one. Scan the signed cover letter if you'll submit electronically.

Step 4: Submit

Submit the pack the way NCDMB directs your company: through NCDMB's portal, its official email address, or by delivery to an NCDMB office. Use the channel and format in NCDMB's current guidance or your NCDMB correspondence.

> **IMPORTANT**
>
> NC Compliance doesn't submit to NCDMB on your behalf, and isn't affiliated with NCDMB. Always confirm the current submission channel and requirements with NCDMB.

Step 5: Keep proof of submission

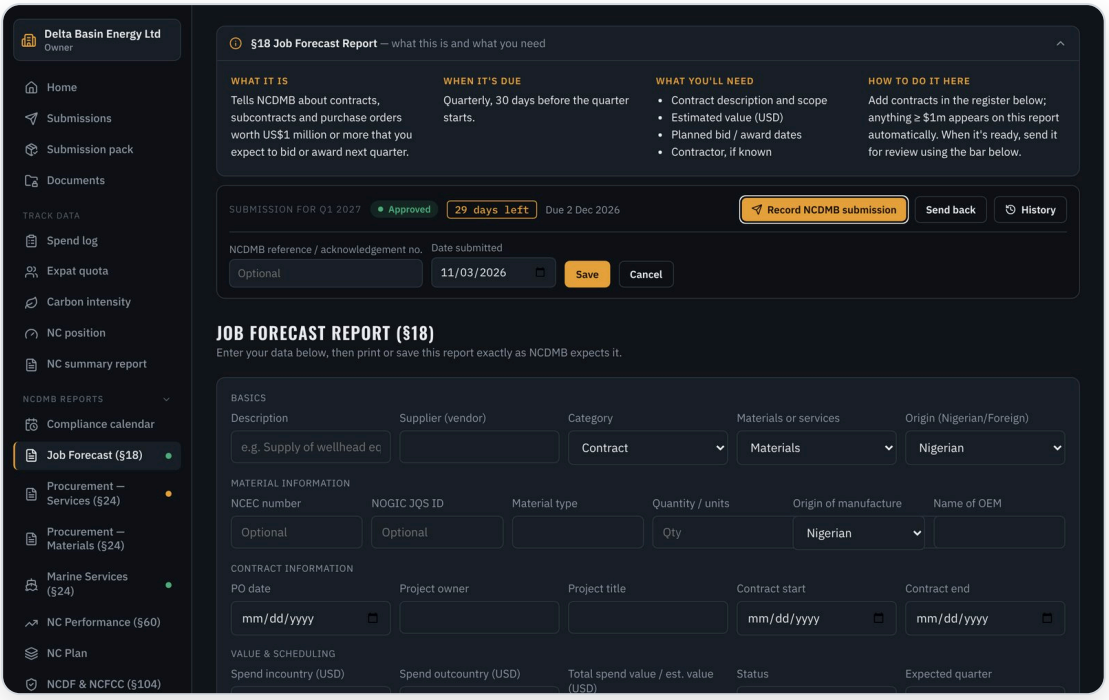

Keep NCDMB's acknowledgement: a reference number, receipt email or stamped copy. You'll record it in the next chapter.

CHAPTER 17

RECORD THE SUBMISSION

Recording the submission closes the loop. Everyone can see what was filed, when, and under which NCDMB reference.

1. Open each submitted report (or use **Open** from the Submission pack page).
2. Click **Record NCDMB submission**.
3. Enter the **NCDMB reference or acknowledgement number** (if you have one) and the **date submitted**.
4. Click **Save**. The status changes to **Submitted to NCDMB**, and the reference shows on the report.

Recording the NCDMB reference and submission date

File the acknowledgement

Upload NCDMB's acknowledgement to **Documents** as **NCDMB submission acknowledgement**. Your filing history is then complete and easy to find for audits.

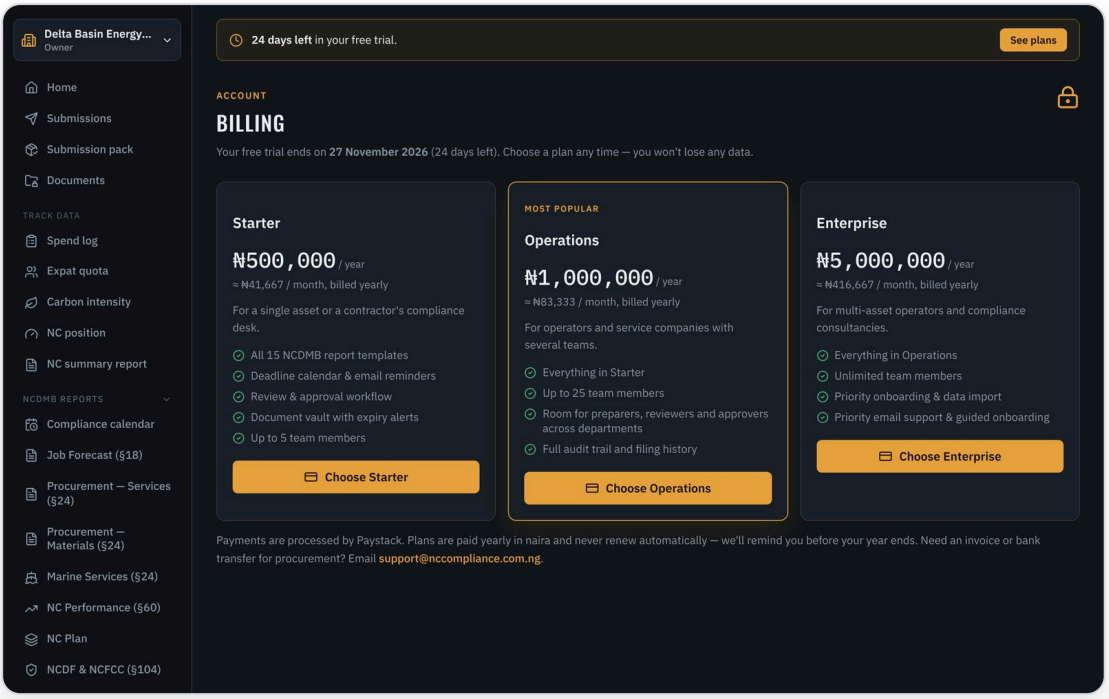

WHO CAN DO THIS

Approvers, admins and the owner.

CHAPTER 18

PLANS, BILLING AND YOUR FREE TRIAL

Every company starts with a free 30-day trial of all features, with no card needed.

Billing: plans and payment history

- **Plans** differ mainly by the number of team members. See **Billing** or nccompliance.com.ng for current plans and prices.
- **Payment** is yearly, in naira, through Paystack. Plans **don't renew automatically**; we remind you before your year ends.
- **Invoice or bank transfer:** if your procurement process needs an invoice, contact us and we'll arrange it.
- **After the trial:** if you don't choose a plan, your workspace becomes read-only. Your data stays safe and readable, and you can choose a plan at any time to keep editing.

WHO CAN DO THIS

The owner and admins manage billing.

CHAPTER 19

QUARTERLY CHECKLIST

Use this each quarter. Starting about six weeks before the deadline gives your team plenty of time.

When	Task	Who
6 weeks before	Import or enter the quarter's spend; add new contracts, subcontracts and purchase orders; record vessels	Preparers
4 weeks before	Check contractors' NCEC numbers; update expatriate quota and training records; upload new certificates	Preparers
3 weeks before	**Send for review** on each report	Preparers
2 weeks before	Check figures; **Mark reviewed** or **Send back**	Reviewer
10 days before	**Approve** each report; fill in the signatory; download the pack	Approver
1 week before	Print, sign and submit to NCDMB	Approver / compliance
On submission	**Record NCDMB submission**; upload the acknowledgement to Documents	Approver

Frequently asked questions

Can several people work on the same company?

Yes. Invite them from Team (Chapter 4). Each person signs in with their own account.

Is our data private?

Yes. Each company's data is kept separate and is visible only to that company's members. See nccompliance.com.ng/security for details.

We keep our spend in Excel. Do we have to retype it?

No. Use **Import from Excel** on the spend log (Chapter 7).

Does NC Compliance submit to NCDMB for us?

No. It prepares the reports and the pack; your company submits them through NCDMB's official channels (Chapter 16).

What if a report needs changing after approval?

Click **Send back**, make the changes, then send it through review and approval again. Every step stays in the history.

We're a consultant with several clients. Do we need several logins?

No. Add each client with **Add a company** and switch between them from the company menu.
